#### SUBCHAPTER E-AIR NAVIGATION **REGULATIONS**

[Airspace Docket No. 60-LA-13]

#### PART 600-DESIGNATION OF FEDERAL AIRWAYS

PART 601-DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSITIVE CONTROL ROUTE SEG-MENTS, AND POSITIVE CONTROL **AREAS** 

#### PART 608-RESTRICTED AREAS

Revocation of Restricted Area and Modification of Federal Airway, Associated Control Areas and Control Area Extension

The purpose of these amendments to Part 608 and §§ 600.14 and 601.1205 of the regulations of the Administrator is to revoke the Albuquerque, N. Mex., Restricted Area (R-313) (Albuquerque Chart), and to modify the description of Green Federal airway No. 4 and the Albuquerque control area extension.

The Department of the Air Force has stated that it no longer has a requirement for Restricted Area (R-313). Therefore, this area is unjustified as an assignment of airspace and revocation thereof is in the public interest. Concurrent with this action, it will be necessary to delete all reference to R-313 in the description of Green 4 and the Albuquerque control area extension.

Since these amendments reduce burden on the public, compliance with the notice, public procedure, and effective date requirements of section 4 of the Administrative Procedure Act is unnecessary, and they may be made effective immediately.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (24 F.R. 4530. 25 F.R. 8005) the following actions are taken:

1. In \$608.39 New Mexico, the Albuquerque, N. Mex., Restricted Area (R-313) (Albuquerque Chart) (23 F.R. 8584, 9773) is revoked.

2. In the text of § 600.14 (14 CFR 600.14, 25 F.R. 2011), "El Morro, N. Mex., radio range station to Albuquerque, N. Mex., radio range station excluding the portion which lies within the geographic limits of, and between the designated altitudes of, the Albuquerque restricted area (R-313) during the restricted area's time of designation;" is deleted and "El Morro, N. Mex., RR; Albuquerque, N. Mex., RR;" is substituted therefor.

3. In the text of § 601.1205 (14 CFR 601.1205) "The portion of this control area extension which lies within Albuquerque Restricted Area (R-313) (published in § 608.39 of this Chapter) shall be used only after obtaining prior approval from Federal Aviation Agency Air Traffic Control." is deleted.

These amendments shall become effective upon date of publication in the Fer-ERAL REGISTER.

#### § 902.64 Base rules.

The following rules shall apply in connection with the establishment of bases:

(a) A base computed pursuant to § 902.63 may be transferred in its entirety upon written notice to the market administrator on or before the last day of the month of transfer, but only if a producer sells, leases or otherwise conveys his farm and entire herd to another producer and it is established to the satisfaction of the market administrator that the conveyance of the herd was bona fide and not for the purpose of evading any provision of this part:

(b) If a producer operates more than one farm, each delivering milk to a pool plant, he shall establish a separate base with respect to producer milk delivered from each such farm; and

(c) Only one base shall be allotted with respect to milk produced by one or more persons where the herd, land, buildings, and equipment used are jointly owned or operated: Provided, That if a base is held jointly, the entire base shall be transferable only upon the receipt of an application signed by all joint holders or their heirs, or assigns.

#### § 902.72 Price for base milk and excess milk.

For each of the months of April through June the price for base milk and excess milk of 3.5 percent butterfat content, f.o.b. market, shall be as fol-

(b) The price for base milk shall be the price computed by the market administrator as follows:

(1) Make the same computations as required pursuant to § 902.71(a) through (d):

(2) Subtract from the resulting value an amount computed by multiplying the total hundredweight of excess milk by the excess price pursuant to paragraph (a) in this section:

(3) Divide the value obtained pursuant to subparagraph (2) in this paragraph by the total hundredweight of base milk; and

8745

(4) Subtract from the resulting amount not less than 4 cents nor more than 5 cents.

Proposed by the Dairy Division, Agricultural Marketing Service:

Proposal No. 12. In § 902.50(b) (2) correct the typographical error in the schedule of skim milk values by inserting a bracket for average prices of nonfat dry milk in the range of \$0.86 to \$0.95, and inserting corresponding skim milk values for this and lesser average prices for nonfat dry milk which conform with the rest of the table.

Proposal No. 13. Make such changes

as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 304 President Washington Building, Arlington Towers, 1011 Arlington Boulevard, Arlington 9, Virginia, or from the Hearing Clerk. The proposal is as follows:

#### § 909.310 Budget of expenses of the Almond Control Board and rate of assessment for the 1960-61 crop

The budget of expenses of the Almond Control Board for the crop year beginning July 1, 1960. shall be in the total amount of \$57,500. such amount being reasonable and likely to be incurred for maintenance and functioning of the Board, and for such purposes as the Secretary may, pursuant to the provisions of this part, determine to be appropriate.

(b) Rate of assessment. The rate of assessment for the said crop year, payable by each handler to the Almond Control Board on demand, shall be 0.135 cent per pound of almonds, kernel weight basis, received by each handler for his own account, except almonds received from other handlers on which assessments have been paid.

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the Federal Aviation Agency is considering an amendment to Parts 600 and 601 of the regulations of the Administrator, the substance of which is stated below.

Blue Federal airway No. 75 presently extends from Cleveland, Ohio, to the United States/Canadian Border north of Cleveland. The Federal Aviation Agency has under consideration revocation of this airway. It appears that this route between Cleveland and London, Ontario

is adequately served by VOR Federal airway No. 5 which closely parallels Blue 75. Therefore, it appears that the retention of this airway and its associated control areas is unjustified as an assignment of airspace and that the revocation thereof would be in the public interest. In addition, Section 601.4675 relating to reporting points on Blue 75 would be revoked.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica 30, N.Y. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data, views or presented during such arguments conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Division Chief.

This amendment is proposed under sections 307(a) and 313(a) of the Federal Aviation Act of 1958 (72 Stat. 749. 752; 49 U.S.C. 1348, 1354).

Issued in Washington, D.C., on September 2, 1960.

> CHARLES W. CARMODY, Chief.

Airspace Utilization Division.

This responsibility shall apply whether property included in the initial inventory is wholly or jointly owned and used, wholly or jointly owned but not used, or wholly or jointly used but not owned, or whether such property is a part of a "system" or otherwise. As used in the regulations in this part, the term "agent operator" refers only to a carrier for which an initial valuation is to be found by the Commission.

#### § 160.3 Copies required.

The data referred to in § 160.1 shall be filed with the Commission in an original only, and one copy shall be retained by carriers. However, copies of ACV Forms prepared by other than the filing carrier may be filed in lieu of originals.

Property held in anticipation of an indefinite future use, and property which is owned by a common carrier and is leased to other than a common carrier shall be reported as noncarrier property. Classification of property under this definition shall be consistent with the classification of property for accounting purposes.

#### § 160.5 Original cost defined.

(1) Where an entire property, or portion thereof, is acquired from another common carrier by purchase, merger, consolidation, or reorganization, the cost of the property, estimated if not known, to the vendor shall be construed to be the original cost of the property acquired.

(2) Where property which has not been previously dedicated to public use is acquired, the cost of acquisition to the vendee shall be regarded as the original cost of the property acquired.

(3) Where the actual cost of property acquired by lease from a noncarrier and placed in public use by a carrier is not obtainable, the estimated cost of such property, as of the date of the lease, shall be used as the original cost.

(b) Where estimated original cost is used it shall be prorated among the primary accounts on an equitable basis, and a notation shall be made that estimates were used, together with an explanation of the method employed in arriving at such estimates.

#### § 160.6 Reporting overhead expenditures.

The term overhead, as used in the regulations in this part, shall be construed as consisting of those expenditures incurred in connection with the construction or acquisition of property which were applicable to a period prior to the date that the property to which they relate was placed in operation. Examples of such expenditures are interest during construction, engineering cost, taxes on physical property, etc.

#### § 160.7 Reporting cost of organization.

Cost of organization shall be reported. in complete detail by category of expenditure, on a separate ACV Form No. 5 which shall be headed "Account No. 2 Cost of organization." The total of amounts shown shall be reported on ACV Form No. 7 in accordance with instructions appearing in § 160.102.

#### § 160.8 Valuation sections.

A valuation section is a geographical segregation of property within a state, and in no case may a valuation section extend beyond a state line. Separate valuation sections shall be established within each state for each group of property identified in the Uniform System of Accounts for Pipe Line Companies as "Gathering Lines," "Trunk Lines," and

"General." Valuation sections so established shall be numbered and shall bear the corresponding identifying suffix G for gathering line property, T Crude or T Prods. for trunkline property, and Gen. for property classified as general. Jointly owning or jointly using carriers, and carriers wholly using property owned by others, shall assign their own valuation section numbers to property so owned or used. Mobile property servicing more than one valuation section of a state shall not be assigned to a valuation section but shall be reported as "Unallocated" for the state served. Mobile property servicing more than one state shall not be assigned to a valuation section but shall be reported as "Unallocated" for the carrier as a whole without state identity. Valuation section numbers and unallocated designations shall be decided by each carrier, subject to the approval of the Commission.

**Bureau of Foreign Commerce** 

[Case No. 272]

GEE & GARNHAM LTD. ET AL.

**Order Denying Export Privileges** 

In the matter of Gee & Garnham Ltd., J. Hammerson, Director, S. L. Hammerson, Director, Global Works, 1-5 Sanford Lane, Stoke Newington, London, Respondents, Case No. 272.

Gee & Garnham, Ltd., J. Hammerson, Managing Director, and S. L. Hammerson, Director, all of London, England, the respondents herein, were charged by the Director, Investigation Staff, Bureau of Foreign Commerce, U.S. Department of Commerce, with having violated the Export Control Act of 1949, as amended, in that, as alleged, they engaged in conduct which induced the exportation of goods from the United States and later transshipped such goods to Communist China contrary to the regulations and the authorizations under which the goods had been exported from the United States. They answered the charging letter admitting the substance of the charges but citing various factors in alleged mitigation.

In accordance with the practice, the case was referred to a Compliance Commissioner, who has reported that the evidence supports findings of violation and has recommended that the respondents be denied export privileges for two years.

Now, after considering the entire record consisting of the charges, the evidence submitted in support thereof, the answers and other evidence submitted by respondents, and the Report and Recommendation of the Compliance Commissioner, I hereby make the following findings of fact:

- 1. Gee & Garnham Ltd. ordered 400 automotive crank shafts from an American exporting firm in November 1959 for shipment to a freight forwarding firm in the Netherlands to their account, and also ordered 300 automotive crank shafts from another American exporting firm in November for shipment to the same firm in the Netherlands to their account.
- 2. During the month of November 1959 these orders were accepted by the American firms and shipped to the Netherlands where they were received by the freight forwarding firm. The forwarders asked Gee & Garnham Ltd. for instructions on disposition of the shipments and were requested to obtain necessary permission for transshipment to Communist China. The Dutch firm asked the American Consulate at Rotterdam for such permission which, upon inquiry, was refused. The respondents' agent was informed the goods could be transshipped to Liverpool, England, and shipment was made accordingly.
- 3. Gee & Garnham Ltd. then sought permission through the American Embassy in London to ship the crank shafts to Communist China and, after some negotiations and exchange of letters, permission was again refused.
- 4. Gee & Garnham Ltd. then shipped the crank shafts to Communist China per "SS Aegean Dolphin."
- 5. Gee & Garnham Ltd. and its members had known of the restrictions on re-export of U.S. origin materials to the Communist bloc areas since 1958.

8760 NOTICES

6. Gee & Garnham Ltd., J. Hammerson, Managing Director, and S. L. Hammerson, Director, were aware that they were in violation of U.S. export controls in these purchases and shipments, both when they placed the orders for the parts in the United States and when they had them transshipped from the Netherlands to Liverpool, England, and thence to Communist China.

And from the foregoing, I have concluded (a) that in violation of § 381.2 of the Export Control Regulations, respondents induced the American exporting firms to sell to them automotive parts to be sent to the Netherlands, but with the ultimate destination of Communist China; and (b) in violation of § 381.4 of the Export Control Regulations, respondents concealed this information from the exporting and shipping firms with full knowledge of the nature of the violation; and (c) in violation of § 381.6 of the Export Control Regulations, the respondents further arranged for the transshipment and re-export of the goods so shipped from the United States to a destination within the Communist bloc

Having concluded that the recommended action is fair, just and necessary to achieve effective enforcement of the law: It is hereby ordered:

I. All outstanding validated export licenses in which Gee and Garnham Ltd., J. Hammerson, and S. L. Hammerson appear or participate as purchaser; intermediate or other consignee, or otherwise, are hereby revoked and shall be returned to the Bureau of Foreign Commerce for concellation.

II. Henceforth, and for a period of two years, the said respondents, their agents, servants, and employees, be, and they hereby are denied all privileges of participating, directly or indirectly, in any manner or capacity, in any exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated license, or resorting to a procedure permitted by any General License, or the utilization of any export control document, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting or other servicing of such exports from the United States.

III. Such denial of export privileges shall extend not only to the respondents, but also to any person, firm, corporation, or business organization with which they now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade in which may be in-

volved exports from the United States or services connected therewith.

IV. Without prior disclosure to, and specific authorization from the Bureau of Foreign Commerce, no person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, shall, on behalf of or in any association with any respondent, directly or indirectly, in any manner or capacity, (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity or (b) order, receive, buy, use, sell, dispose of, finance, transport, or forward any commodity heretofore or hereafter exported from the United States. Nor shall any person do any of the foregoing acts with respect to any such commodity or exportation in which any respondent may have any interest of any kind or nature.

It further appearing that receipt of the Commission's letter was acknowledged by the signature of the Licensee, Anthony DiLouis, on November 7, 1959, to a Post Office Department return receipt; and

It further appearing that, although more than fifteen days have elapsed since the licensee's receipt of the Commission's letter, no response was made thereto; and
